

I've got more Facebook friends than my friend does

I'm only on Instagram

What is a sext?

A sext is a mix of the words "sex" and "texting". It's when you use technology to share personal sexual content. If there is sexual content being shared you can ask for help with a trusted adult and the police. Sometimes you can report the photo to the site its shared on to get it deleted.

A naked picture of someone I know is being shared

I have naked photos on my phone but no one can see them

Compliments of

Sometimes we do things without thinking, or we might feel pressured by others into doing things we wouldn't usually do. Sexting when you are under 16 years old or viewing naked images or sending naked images when you are under 18 years old is illegal. Sometimes we don't realise that things can get out of our control. What if someone stole your phone?

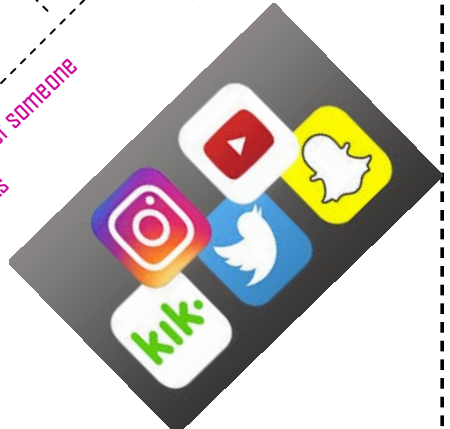

Laurel Place

Everyone takes pictures of their private parts

If you open a video that is sexual in content delete it right away. Whether it is accidental or deliberate it is still illegal. Then be sure to seek help with an adult you trust. There are many places and people that can help you. Laurel Place is one.

Someone sent me a photo of a boys penis

I accidentally opened a video of someone touching their private parts

**EVEN IF WE THINK WE CAN TRUST PEOPLE, THEY CAN STILL SHARE OUR INFORMATION. IT'S IMPORTANT TO ONLY FRIEND PEOPLE YOU KNOW, AND TO ONLY SHARE SAFE INFORMATION. TALK TO AN ADULT ABOUT PRIVACY SETTINGS AND SETTING AND CHANGING PASSWORDS.**
